Study Guide

Message	Welcome to Module 3 (Weeks 5 and 6)
Reminders	Required Materials for Lab 1: - Over the counter iodine solution (can be purchased in any drug store) - Cotton balls - Clean white paper towels cut in 2 cm² squares This Module covers two weeks of the 15-week semester. For online courses, weeks run from Tuesday to Monday. WILEYPLUS There is a WileyPLUS Support Link located in the WileyPLUS Module in Canvas. Please click on this link and speak with a customer representative right away if you encounter difficulties.
Due Dates	DQ 5: - Your initial post is due by 11:59 PM ET on Saturday of Week 5. - Your replies are due by 11:59 PM ET on Monday of Week 5. Chapter 5 WP Assignment is due by 11:59 PM ET on Sunday of Week 5. Lab Assignment 1 (skin lab) is due by 11:59 PM ET on Sunday of Week 5. DQ 6 - Your initial post is due by 11:59 PM ET on Saturday of Week 6. - Your replies are due by 11:59 PM ET on Monday of Week 6. Chapter 6 WP Assignment is due by 11:59 PM ET on Sunday of Week 6. Exam 1 is due by 11:59pm ET on Monday of Week 6. Lab Practical 1 is due by 11:59pm ET on Monday of Week 6.

Objectives

Chapter 5:

- Describe the layers of the epidermis and the cells that compose them
- Compare the composition of papillary and reticular dermis
- Explain the basis for different skin colors
- Contrast the structure, distribution, and function of hair, skin glands, and nails

- Compare the structural and functional differences between thin and thick skin
 - Describe how the skin contributes to the regulation of body temperature, storage of blood, protection, sensation, excretion and absorption, and synthesis of vitamin D
 - Explain how epidermal wounds and deep wounds heal
 - Describe the development of the epidermis, its accessory structures, and the dermis
 - Describe the effects of aging on the integumentary system
 - Discuss the homeostatic imbalances of skin cancer, burns, and pressure ulcers
- ***THESE LEARNING OBJECTIVES SHOULD SERVE AS AN EXAM STUDY GUIDE; REFER TO “THINGS TO KNOW FOR PRACTICAL 1” DOCUMENT FOR PRACTICAL STUDY GUIDE***

Chapter 6:

- Describe the six main functions of the skeletal system
 - Discuss the structure and functions of each part of a long bone
 - Describe the cellular composition of bone tissue and the functions of each type of cell
 - Compare the structural and functional differences between compact and spongy bone tissue
 - Describe the steps of intramembranous and endochondral ossification
 - Explain the processes of bone growth and bone remodeling
 - Describe the common types of fractures and the events involved in fracture repair
 - Explain how calcium level is regulated
 - Discuss how exercise and mechanical stress affects bone tissue
 - Describe the effects of aging on bone tissue
 - Discuss the homeostatic imbalances of osteoporosis, rickets and osteomalacia
- ***THESE LEARNING OBJECTIVES SHOULD SERVE AS AN EXAM STUDY GUIDE; REFER TO “THINGS TO KNOW FOR PRACTICAL 2” AND “SKELETON LIST” DOCUMENTS FOR PRACTICAL STUDY GUIDE***

Instructions

Week 5 - Chapter 5 The Integumentary System

1. **Read** Chapter 5 in textbook and BIOL10210 - Lecture 5 - Chapter 5 powerpoint
 - a. To view embedded Interaction Animations, you must be in Slide Show view of the powerpoint. You will be taken to the Wiley page once you click on the appropriate link. Select the Play Video arrow.
2. **View** the following videos in the Media Gallery:
 - a. Lecture 5.1 - *Epidermal Cells and Layers*
 - b. Lecture 5.2 - *Dermal Layers and Structures*
 - c. Lecture 5.3 - *Hair and Nails*
 - d. Lecture 5.4 - *Skin Cancer and Burns*
3. **DQ 5:** Create your initial post on the DQ 5 Discussion Board in response to the following

question(s):

- Please watch the short video “The Biology of Skin Color” produced by the Howard Hughes Foundation. It can be found at <https://www.biointeractive.org/classroom-resources/biology-skin-color> and look for the Play Short Film icon.
- Once you have watched this film, share what you thought was the most interesting fact about human skin pigmentation you learned by watching the film. Why was this the most interesting fact for you?

After posting, return to the board and read over the posts of your fellow classmates. Choose at least two classmates and create a post responding to his/her initial post on the Discussion Board.

4. **Chapter 5 WP Assignment.** Complete this assignment in WileyPlus. When you click on the Chapter 5 WP Assignment link in Canvas, you will be taken directly to the Assignment. Your grade will automatically be transferred into Canvas. You can use whatever resources you like (textbook, powerpoint, etc.) to complete this assignment.
 - a. You will be given two attempts to answer each question. First attempt correct response = 100%; second attempt correct response= 50%. Responses not correct after the second attempt will receive a zero.
 - b. You do not need to complete the assignment in a single sitting. Your grade will automatically adjust as you answer questions.
 - c. No late submissions will be accepted. Your two lowest scores will be dropped.
5. **Lab Assignment 1:** Review the *Lab 1 Skin Lab* document (located in Weekly Module).

Complete the document. The file must be named in the following format:

Lastname_LabAssignment1. Submit your completed document to *Lab Assignment 1*, listed on the *Modules* and *Assignments* pages, as a file attachment. This assignment must be typed and submitted electronically (.pdf or .docx) format.

Week 6 - The Skeletal System: Bone Tissue

1. **Read** Chapter 6 in textbook and BIOL10210 - Lecture 6 - Chapter 6 powerpoint
 - a. To view embedded Interaction Animations, you must be in Slide Show view of the powerpoint. You will be taken to the Wiley page once you click on the appropriate link. Select the Play Video arrow.
2. **View** the following videos in the Media Gallery:
 - a. Lecture 6.1 - *Bone Cells and Histology*
 - b. Lecture 6.2 - *Long Bone Anatomy*
3. **DQ 6:** Create your initial post on the DQ 6 Discussion Board in response to the following question(s):
 - Find a disorder of the skeletal system, describe it, and include an image. Make sure to

include proper reference information. The Rowan library has a site for citation information: <https://libguides.rowan.edu/c.php?g=483141>

After posting, return to the board and read over the posts of your fellow classmates. Choose at least two classmates and create a post responding to his/her initial post on the Discussion Board.

4. **Chapter 6 WP Assignment.** Complete this assignment in WileyPlus. When you click on the Chapter 6 WP Assignment link in Canvas, you will be taken directly to the Assignment. Your grade will automatically be transferred into Canvas. You can use whatever resources you like (textbook, powerpoint, etc.) to complete this assignment.
 - a. You will be given two attempts to answer each question. First attempt correct response = 100%; second attempt correct response= 50%. Responses not correct after the second attempt will receive a zero.
 - b. You do not need to complete the assignment in a single sitting. Your grade will automatically adjust as you answer questions.
5. **Exam 1.** Exam 1 covers the material covered in chapters 1-5. It consists of 100 objective (multiple-choice or True/False) questions. **You will have 90 minutes to complete this exam from the time you start.** If you have any questions, contact the instructor. **IMPORTANT:** You will not be allowed to continue to take the exam past the availability deadline. **BE SURE TO ALLOW SUFFICIENT TIME TO COMPLETE THE EXAM AND TO ALLOW FOR TECHNICAL DIFFICULTIES**
 - a. During an exam you may not have the textbook open, use of the text or any other source during an exam is not permitted, using the textbook or other source while taking an exam is cheating.

Note: Students must complete and submit the exam in a single sitting within the allotted time once they click on **Take the Quiz**. You cannot pause or stop the timer for the exam once you start—even if you visit another page in the course, logout, or your browser quits unexpectedly. You can resume the exam by clicking on the title of the exam in your course and clicking on **Resume the Quiz**.

IMPORTANT REMINDER: Each student is expected to work on this **individually** and within the confines of the University Academic Honesty Policy (see <http://www.rowanonline.com> for University Policies and details).

6. **Lab Practical 1.** Practical 1 covers the material covered in chapters 1-5. It consists of 52 open-ended questions. **You will have 45 minutes to complete this exam from the time you start.** If you have any questions, contact the instructor. **IMPORTANT:** You will not be allowed to continue to take the exam past the availability deadline. **BE SURE TO ALLOW SUFFICIENT TIME TO COMPLETE THE EXAM AND TO ALLOW FOR TECHNICAL DIFFICULTIES**
 - a. During an exam you may not have the textbook open, use of the text or any other source during an exam is not permitted, using the textbook or other source while taking an exam is cheating.
